RHEUMATISM

Is due to an acid poison which gains access to the blood through failure of the proper organs to carry off and keep the system clear of all morbid, effete matter. This poison

through the general circulation is deposited in the joints, muscles and nerves, causing the most intense pain. Rheumatism may attack with such suddenness and severity as to make within a few days a healthy, active person helpless and bed-ridden, with distorted limbs and shattered nerves; or it may be slow in developing, with slight wandering pains, just severe enough to make one feel uncomfortable; the tendency in such cases is to grow worse, and finally become chronic.

Like other blood diseases, Rheumatism is often inherited, and exposure to damp or cold, want of proper food, insufficient clothing, or anything calculated to impair the health, will frequently cause it to develop in early life, but more often not until middle age or later. In whatever form, whether acute or chronic, acquired or inherited, **Rheumatism is Strictly a Blood Disease,** and no liniment or other external treatment can reach the trouble. Neither do the preparations of potash and mercury, and the various mineral salts, which the doctors always prescribe, cure Rheumatism, but ruin the digestion and break down the constitution.

A remedy which builds up the general health and at the same time rids the system of the poison is the only safe and certain cure for Rheumatism. S. S. S., made of roots, herbs and barks of wonderful solvent, purifying properties, attacks the disease in the right way, and in the right place—the blood—and quickly neutralizes the acid and dissolves all poisonous deposits, stimulates and reinforces the overworked, worn-out organs, and clears the system of all unhealthy accumulations. S. S. S. cures permanently and thoroughly, and keeps the blood in a pure, healthy state.

Mr. J. O. Malley, 123 W. 13th Street, Indianapolis, Ind., for eighteen months was so terribly afflicted with Rheumatism he was unable to feed or dress himself. Doctors said his case was hopeless. He had tried fifty-two prescriptions that friends had given him, without the slightest relief. A few bottles of S. S. S. cured him permanently, and he has never had a rheumatic pain since. This was five years ago.

We will send free our special book on Rheumatism, which should be in the hands of every sufferer from this torturing disease. Our physicians have made blood and skin diseases a life study, and will give you any information or advice wanted, so write them fully and freely about your case. We make no charge whatever for this service. Address, SWIFT SPECIFIC CO., Atlanta, Ga.

The Western Farmer

The Western man in his worst mood has a friendly feeling for those peculiarly Western products, corn, pork and the live hog. He has special reason for this sentiment this year. His corn has advanced ten cents a bushel from the price of last September; his hog has advanced 1 1/2 cents per pound, or about \$3.00 a head; his pork is up \$3.50 a barrel, his lard up \$4 a tierce, and his short rib sides up 1 1/2 cents in ninety days. The hog has made a liberal contribution to the Western happiness, far more liberal than anything else. He has grunted and stuffed and grown and has added to his master's wealth in the past ninety days at the rate of \$3 per individual hog. He was in no great demand around Thanksgiving day at less than four cents a pound, or, say, \$8 for a single porker. The millionaire packers are now competing for him at 5 1/2 cents per pound. On the moderate hog, the one of merely the modest proportions of 200 pounds, this price means \$11 as he goes over the scale to the pork barrel to fill his mission on earth. That \$3 advance on a single animal is not to be belittled, but, multiplied by the 50,000,000 hogs, which is about an average supply, it makes the Western profit in three months \$150,000,000. The Western farmer, when he speculates, has a weakness for hog product. He believes the pork game the thing he is peculiarly adapted for. An advance of \$3.50 a barrel on pork, from around \$9.50 in December to around \$13 in March, is a dividend of the richest sort for the Western man who does a great deal of work all the time, but who yields to temptation and does a little speculating occasionally. The advance of \$4 a tierce in lard and of 1 1/2 cents per pound on short ribs are as grateful to him as the pork rally—all rich prizes from the soil.—Chicago Times Herald.

THE NEW YORK WORLD, THRICE-A-WEEK EDITION.

Almost A Daily—At the Price of a Weekly.

The most widely circulated "weekly" newspaper in America is the Thrice-a-Week edition of the New York World, and with the Presidential campaign now at hand you can not do without it. Here are some of the reasons why it is the leader in dollar a year journalism.

It is issued every other day, and is to all purposes a daily.

Every week each subscriber receives 18 pages and often during the "busy" season 24 pages each week.

The price is only \$1.00 per year. It is virtually a daily at the price of a weekly.

Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service.

The Thrice-a-Week World has at its disposal all of the resources of the greatest newspaper in existence—the wonder of modern journalism—"America's Greatest Newspaper," as it has been justly termed—The New York World.

Its political news is absolutely impartial. This fact will be of especial value in the Presidential campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons; there are others. Read it and see them all.

We offer this unequalled newspaper and The Advocate together one year for \$1.65.

The regular subscription price of the two papers is \$2.00.

It's up to the People.

Less than a year remains in which to gather facts, and information that will influence your vote for the next president of the United States.

That grievous wrongs have been committed, and grave errors allowed to exist without effort at correction, is evidenced by the speech, writings, and comments of eminent statesmen and jurists; congressmen and leading men of business; professors and clergymen in every state.

Party affiliations have been ignored in the outcry against thrusting aside the safeguards of our fathers and rushing pell-mell into the affairs of Europe. The situation is a deplorable one if not alarming; as is also our domestic affairs dominated by gigantic trusts.

The evils are not of spontaneous growth! They are the result of years of labor and expenditure of millions of dollars! Beginning with the displacement of American silver for English gold, the cunning of England's diplomacy in shaping the destiny of our Republic is apparent to any ordinary observer seeking the true inwardness of events.

The Cincinnati Enquirer has frequently called attention to each and every move as it was transpiring, and during the campaign of 1900 will present its readers with a truthful array of facts that will be extremely interesting and startling.

No fair-minded American, be he Republican, Democrat or of other political faith, can afford at this critical time to ignore the truth. Partisan prejudice, with the trusts as dictators, is a far more degrading slavery than that which existed previous to the Civil War of '61-'64.

Trusts in the United States alone have a representative capital greater than all the gold and silver in the world. These will spend many more millions of dollars to suppress truth and facts and mislead all who fail to look beyond their plausible deceptions. Read the Enquirer and you will be able to discern the truth and combat falsehood. A victory for trusts and the McKinley Administration in 1900 will end the era of greatest good to greatest number.

Watch carefully the Cincinnati Enquirer.
